

# LEED 100:

## INTRODUCTION TO THE GREEN & INTELLIGENT BUILDING MOVEMENT

Tuesday, February 23rd, 2010

7:30 AM Registration; 8:00 AM-12:30 PM, Course

Members: \$60

Nonmembers: \$75

Gwinnett Environmental & Heritage Center  
2020 Clean Water Drive  
Buford, GA 30519

*Green building is part of everyday conversation in development and construction, and a basic awareness of the origin and principles of the movement is essential to navigating the future of the industry.*

This course covers:

- The fundamentals and evolution of sustainability, including the goals and benefits of building green
- The important information behind the most well-known green building program - the United States Green Building Council's LEED Rating System.
- The realm of building innovation and connectivity technology, often referred to as "intelligent" building technology.
- Trends and new advances in the industry including relationships between technological performance and social, economic, and environmental benefits to buildings.
