Georgia Association of Water Professionals

STORMWATER WORKSHOP

Stormwater Won't Work Until We Do

**MNGWPD & CQG's Stormwater Working Group
Joint Statement**

“Recent litigation wins have help ensure the metro Atlanta region’s long-term water supply to support economic vitality, quality of life, and progress. Good management of stormwater helps protect human life, property, and natural resources. As more of metro Atlanta urbanizes and is more densely developed, robust stormwater infrastructure improves water quality, mitigates flooding, and protects ecosystems. And as the intensity and frequency of storms increases, we must take collaborative action to improve the region’s stormwater management practices and policies – to ensure our continued quality of life.”

Workshop Program on Reverse

Stormwater Workshop Program

June 14, 2023

8:30 | Registration, Networking, & Breakfast
