

2023 MEMBER HIGHLIGHTS

The Council is the **only organization** that **works exclusively** on behalf of the development industry at the **intersection of public policy and private investment** every day. We're on the forefront of advocating on issues that affect **how and where** our members can do business in the metro Atlanta region. As an organization with **strong membership involvement** on industry issues, our achievements are your successes, too.

Here are just a **few** highlights from 2023.

MOVING THE NEEDLE FOR OUR MEMBERS

STATE

Opposed legislation for the creation of Buckhead City (Senate Bills 113 & 114) in response to our members' firm belief that the potential harm this legislation would bring to the City of Atlanta, our region, and our state substantially outweighed the stated benefits of allowing Buckhead to secede from the City of Atlanta.

Lobbied to maintain funding in the Georgia Transportation Infrastructure Bank (GTIB) and continued to educate elected officials on the impact.

LOCAL

Represented industry recommendations on significant amendments to zoning, development, and permitting standards in Gwinnett County.

Engaged on workforce housing initiatives in DeKalb County and provided industry feedback on the county's cottage housing ordinance.

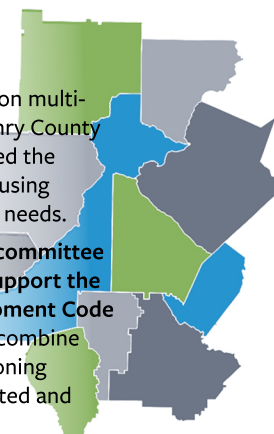

Convened leaders to address stormwater management and flooding challenges across metro Atlanta to take collaborative action by assessing our region's practices and policies in partnership with Atlanta Regional Commission.

Proposed industry feedback on multi-family design standards as Henry County adopted updates and supported the county's newly established Housing Task Force to address housing needs.

Established a private sector committee with the Cobb Chamber to support the creation of a **Unified Development Code** in Cobb County, which would combine development standards and zoning regulations to eliminate outdated and conflicting guidelines.

WITH LOCAL GOVERNMENT
OFFICIALS ON REGION-WIDE
ISSUES**

Your Council Membership doesn't start or stop at the city or county line - and our members show it. More than 2,000 representatives from Council member companies attended 90+ Advisory Roundtable Meetings across the region. These in-depth roundtable discussions with local elected officials and other leaders address emerging policy topics including affordable housing, impact fees, transit and transportation infrastructure, stormwater management, and tree protection ordinances. The Council hosts public policy makers for the only intimate discussions in the region focused on growth and development issues.

REGIONAL

To grow, Atlanta needs to be able to move. On our members' behalf, we facilitated collaboration among state transportation agencies, local transit operators, CID Executive Directors, and local Transportation Directors across metro Atlanta to implement safe and reliable multimodal transportation options.

Only the Council brings public and private sectors together on these critical issues. We convened the region's planning leadership to discuss trends and best practices in planning and land-use policy in housing diversity, regional density, and evolving parking needs - the issues that impact our members every day.
